PRODUCT DESCRIPTION

Here at Street Furniture Direct the Stainless Steel Bollard is one of our most popular bollards we offer. These bollards have been used in a wide range of projects from shopping centres and town centres to petrol stations and other high traffic areas. We are able to provide a wide range of options on all of our Stainless Steel Bollards from different diameters, to a range of different caps.

The cap we provide as standard is a semi domed top but there are choices available including; a welded flat cap, or a mitred top, along with many more for a small extra cost. If you do require a different cap please contact one of our trained advisers.

Our Stainless Steel Bollards are provided as standard in Grade 304. Grade 316 is also available, suitable for saline atmospheres such as coastal areas. The Stainless Steel finish will make it so it doesn't look out of place in a modern project.

The **Reinforced Stainless Steel Bollard** is available in 3 standard diameters; 101mm, 114mm, 140mm (other dimensions are possible on request). Manufactured with an internal steel core adding strength to withstand impacts from any direction. Hazard Banding strips are also available for additional visibility at night. The Reinforced Stainless Steel Bollards offers the benefits of Anit-Ram for added security and protection for any area.

We hold in stock 101mm and 114mm diameter with semi dome top in grade 304, an order of theses would be with you within 48 hours. For other versions, the lead time will be 2-3 weeks.

If you are looking for a selection of bollards or to create a collection of street furniture, let us know and we can help you put together a full solution.
