Tuscan Heavy Duty Bench

TUSCAN HEAVY DUTY BENCH

Product Code: SFD301

Dots

PRODUCT DESCRIPTION

The Tuscan Heavy Duty Bench is a UK manufactured timber bench that can comfortably seat 2 people.

This is a simple yet quality product that fits into most environments satisfying the need for seating space in public or private outdoor areas. Great for pubs and beer gardens as light enough to be moved around as needed.

Coming in at just under 4ft, this seat has a comfortable backrest and armrests at both ends to assist with sitting and rising.

The timbers are pressure treated for longevity.

The product is supplied flat packed and requires assembly.

Timber Information: With changes in temperature and humidity timber can exhibit a variety of natural features. These are known as shakes and appear as the timber dries out and loses its moisture content. As timber is a natural product this is to be expected and does not affect the strength or durability of the product. From time to time our products may present a colouration on the surface. This is from the pressure treatment process and will fade over time. Again this does not affect the durability of the product.

Additional postage charges may apply to the following postcodes - KA, FK, KY, DD, PA, SA, AB, IV, PH, PL, TR, BT, GY, HS, IM, JE, KW, PA (20-78), ZE, PO (30-40). Please get in touch for details

SPECIFICATIONS

Width	1200mm
Depth	610mm
Height	900mm
Fixing	Surface Mounted
