PRODUCT DESCRIPTION

The Stainless Steel Bollard is one of the most popular bollards we offer. Suited for a wide range of external spaces such as shopping centres, town centres, fuel stations and other high traffic areas.

Bollards come as standard with a semi domed top - Additional options include Mitred top and Flat top.

Provided as standard in 3mm gauge wall, Grade 304. Grade 316 is also available, suitable for saline atmospheres such as coastal areas.

Hazard Banding strips are also available for additional visibility at night.

We hold in stock 101mm and 114mm diameter with semi dome top in grade 304, For other versions, the lead time will be 2-3 weeks.

Looking for more security? Consider our Titan Reinforced Stainless Steel Bollard for additional Anti-Ram benefits.
