Motorcycle Hitching Rail

MOTORCYCLE HITCHING RAIL

Product Code: SFD424

Dots

PRODUCT DESCRIPTION

The Motorcycle Hitching Rail is a sturdy steel construction that can secure up to 5 motorcycles. It is fully galvanised throughout to withstand all environments.

The hitching rails fit perfectly inside a number of our cycle shelters. Shelters are great for adding additional protection and cover to the motorbikes. Contact us to discuss options.

The Motorcycle Hitching Rail can be surface mounted or root fixed. M-10 Bolts are recommended when securing to the ground with the surface mounted version.
