PRODUCT DESCRIPTION

The Eltham Cycle Trough has an incredible design that saves on space and cost. The trough can be wall mounting or it can be added to a rack with multiple bike spaces as the **Eltham Cycle Rack.**

Bikes are secured in a completely vertical position in order to maximise the cycle parking capacity and surrounding space. Idea for domestic use in garages as well as busy cycle hubs and offices.

The rack comes complete with locking loops to secure both the bike frame and a wheel, which can help contribute towards gaining ENE8 Cycle.

Available in a host of options and onsite in less that 72hrs.
