76mm Diameter Stainless Steel Telescopic Bollard

76MM DIAMETER STAINLESS STEEL TELESCOPIC BOLLARD

Product Code: SFD5192

Dots

PRODUCT DESCRIPTION

The **76mm Diameter Stainless Steel Telescopic Bollard** has a steel section installed into the ground and a brushed stain stainless steel bollard that can be raised and lowered flush to the ground. The design features a lockable key that can be supplied keyed differently or keyed alike so you have control of who has access.

Advantages of design;
- Lockable
- Flush to the ground
- Aesthetics - stainless steel complements many architectural styles
- Versatility - allows temporary access to vehicles
- Durable and low maintenance
- Easy to use

Ideal for use in car parks, public spaces, commercial buildings, event venues, schools and universities.
