Stratton Double Illuminated Timber Bollard

STRATTON DOUBLE ILLUMINATED TIMBER BOLLARD

Product Code: SFD591

Dots

PRODUCT DESCRIPTION

Stratton Double Illuminated Timber Bollard. Create a stunning display with our stylish range of solid wooden lighting bollards. Fitted with energy-efficient LED low voltage lamp units. Can be used in multiple areas including car parks, driveways, paths, commercial areas, and even indoors!

With its generous proportions, this lighting bollard is sure to make an impact wherever you put it. It will give you years of reliable service.

Made from components that can be recycled or naturally decomposed at the end of its useful life. Style doesn’t have to leave a legacy long after the light has been finished with.

Every bollard is finished with a coat of Danish oil before leaving the factory. It brings out the fantastic colours and grain and ensures it stays that way.

Milled from “green” timber this lighting bollard will crack, twist and warp over time – this is completely normal and just adds to the character, no two bollards will ever be the same!

- Twin 1.3w 240v LED Lamp
- Oak & Larch timber options
- 1 Year warranty on electrical components
- Easy to install
- Low maintenance
- Sustainably sourced timbers
- Approximately 13.3Kg (Larch) and 16.2Kg (Oak) sequestered carbon
