Hydrangea GRP & Timber Planter

HYDRANGEA GRP & TIMBER PLANTER

Product Code: SFD617

Dots

PRODUCT DESCRIPTION

The Hydrangea Planter is a contemporary planter range with a fusion of GRP and timber to create a modern twist on a traditional style.

The Hydrangeo Planter is a stunning planter made from Glass Reinforced Plastic (GRP) which is then clad in hardwood. Choose from a wide variety of hardwoods, sustainably sourced (FSC) certified, to complete the look (contact us to discuss options). The choice of hardwood timber includes Sapele, Iroko, Cumaru and Western Red Cedar. Other timbers can be sourced. Each planter is handmade to order once the timber has been specified.

The Hydrangea Planter can be made in a variety of sizes and is a great piece of street furniture or perfect for large gardens.

The planter is made at 600mm cubed and 600mm high as standard but can also be made in a variety of other sizes if requested.

Heights of the planter are 600mm high with a large chunky rim in GRP at the top. The top of the planter can be made in any RAL colour.

The hardwood for the planter can be oiled, stained or lacquered. We would recommend oil for exterior planters and fire retardant lacquer for interior projects.

Available as a trough or a cube this range will work perfect with both small and large projects.

SPECIFICATIONS

Length	600mm
Width	600mm
Height	600mm
Fixing	Surface Mounted
Material	GRP (Glass Reinforced Plastic), Timber
