PRODUCT DESCRIPTION

The Everest Single Tier Cycle Rack provides an alternative to the standard double-decker cycle racks by allowing for space beneath for a Sheffield toastrack or standard hoops

This can be an easier-to-maintain system where leaves and litter can be an issue.

An Ideal storage solution where space is at a premium and popular within new developments such as office blocks, housing, apartments, as well as transport hubs.

To load each bike to the top tier is simple and requires minimal effort.

Our trained staff will be able to answer any questions in regards to the Everest Single Tier Cycle Rack you may have.

Priced at £165 per bike parking space. Minimum order of 20 bike spaces for online orders. Contact us if you have different requirements.

**Contact one of our trained advisers to arrange a free site visit.*
